In addition to advanced threat protection, Blackhawk Fortress also offers a range of other features to help SMBs improve their overall security posture.

THE PROGRAM HAS THREE TIERS - ONYX, PLATINUM, AND DIAMOND - EACH OFFERING PROGRESSIVELY HIGHER REBATES.

The Onyx tier is the starting point and offers a 5% rebate on the monthly revenue generated by converted referrals. To progress to the Platinum tier, a partner must refer more than 10 converted clients, and to progress to the Diamond tier, a partner must refer more than 15 converted clients. The Platinum tier offers a 7.5% rebate, and the Diamond tier offers a 10% rebate. These rebates are paid on the lifetime of the referral's purchase of Blackhawk Fortress.

This amount could be even higher if the partner progresses to the Platinum or Diamond tier, which offer 7.5% and 10% rebates, respectively.

In addition to the financial benefits of the Blackhawk Partner Program, it is important to note that cybersecurity solutions are 100% tax deductible to our customers. This means that by referring clients to Blackhawk Fortress, partners are not only earning ongoing revenue but also helping their clients save on taxes.

Furthermore, the rebates earned through the program could even be used to cover the cost of the partner's own cybersecurity needs.

Overall, the Blackhawk Partner Program offers a financially beneficial way for partners to earn steady revenue, help their clients save on taxes, and protect Australian SMB's safe from cyber attacks. The program is a unique opportunity for partners to earn revenue through referrals and is especially valuable in today's changing economic climate.
